The Honorable Board of Supervisors  
County of Los Angeles  
383 Kenneth Hahn Hall of Administration  
500 West Temple Street  
Los Angeles, California 90012

Dear Supervisors:

**APPROVAL OF AGREEMENTS #06-0156 AND #06-0156-AMENDMENT 1 WITH THE  
CALIFORNIA DEPARTMENT OF FOOD AND AGRICULTURE FOR THE  
HIGH RISK PEST EXCLUSION PROGRAM  
(ALL DISTRICTS) (3-VOTES)**

**IT IS RECOMMENDED THAT YOUR BOARD:**

1. Authorize the agricultural Commissioner/Director of Weights and Measures (ACWM) to execute the terms of contract #06-0156-Amendment 1 in the total revised amount of \$844,323.00 with the California Department of Food and Agriculture (CDFA) in the inspection of shipping facilities, such as postal centers, express carriers, and the airport, for the High Risk Pest Exclusion (HRPE) Program. This contract amendment reflects a revised scope of work criteria and an agreement value increase of \$447,043.00 from the CDFA contract #06-0156 originally proposed in the amount of \$397,280.00.
2. Authorize the ACWM to execute the terms of contract #06-0156 with CDFA as originally proposed by CDFA in the amount of \$397,280.00.
3. Approve and instruct the Commissioner, on behalf of the Chairman, to sign the two attached agreements, numbered #06-0156 and #06-0156-Amendment 1, with CDFA to continue the HRPE Program effective July 1, 2006 through June 30, 2007.
4. Authorize the ACWM to amend the contract agreement in an amount not to exceed 15% of contract #06-0156-Amendment 1 in the amount of \$844,323.00.

**PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:**

Your board has approved similar agreements with CDFA since 2000. Approval of the recommended actions will enable the ACWM to continue the HRPE Program to prevent the entry of exotic plant pests and diseases into Los Angeles County.

The County HRPE Program provides for the inspection of trucks carrying nursery plants and air freight terminals through which agricultural commodities are shipped, such as plants, flowers, and produce. The program, with the amended scope of work and agreement value, also provides for the inspection of sea containers, express freight facilities, specialty markets, and swap meets at which plant and produce shipments and marketing are involved. Preventing pest introductions reduces the need for pest eradication and resulting needs for new pesticide applications in Los Angeles County.

ACWM has consulted and worked collaboratively with shippers and receivers to assist in preventing the entry of exotic plant pests and diseases.

**Implementation of Strategic Plan Goals:**

Awarding these combined contracts meets the County's Strategic Plan Goal of Service Excellence. The high Risk Pest Exclusion Program significantly reduces the risk of new pest introduction, which reduces the need for pesticide applications against new pests in the County.

**FISCAL IMPACT/FINANCING:**

Under this agreement, CDFA will provide funding in the amount of \$844,323 for work performed by ACWM from July 1, 2006 through June 30, 2007. As ACWM will perform inspection work to the level provided by funding of the current agreement, the program will allow for full cost recovery and has no effect on net County cost.

**FACTS AND PROVISIONS/LEGAL REQUIREMENTS:**

The combined contracts apply to the period July 1, 2006 through June 30, 2007.

Section 2282.5 of the Food and Agricultural Code provides annual funding for the high risk pest exclusion program. It specifies and mandates that high hazard pest exclusion inspections be enhanced first, and monies may then be available to ten (10) other specified ACWM programs. These programs are pest detection, pest eradication, pest management control, pest exclusion, seed inspection, nursery inspection, fruit and vegetable quality control, egg quality control, apiary inspection and crop statistics.

Contracts #06-0156 and #06-0156-Amendment 1 have been reviewed by County Counsel and are approved as to form.

**IMPACT OF CURRENT SERVICES (OR PROJECTS):**

The recommended Board action will support the program services for the entire 2006-2007 Fiscal Year.

**CONCLUSION:**

When approved, please return to this Department the Standard Agreement #06-0156, Standard Agreement Amendment #06-0156-Amendment 1, and the minute order authorizing the Agricultural Commissioner/Director of Weights and Measures to sign. My Department will forward copies of the documents to the CDFA Contracts Office.

Respectfully submitted,

Kurt E. Floren  
Agricultural Commissioner/  
Director of Weights and Measures

**EXHIBIT A**  
**SCOPE OF WORK**  
**Criteria for Work Plan**

The county of Los Angeles agrees to perform high-risk inspection and enforcement activities for the California Department of Food and Agriculture (CDFA) in compliance with the requirements imposed by Chapter 573 (AB 1771), Statutes of 2000, Food and Agricultural Code Section 2282.5, Exhibit A, Attachment 2, and High-Risk Pest Exclusion Program Guidelines incorporated in this scope of work, Exhibit A, Attachment 3. The county of Los Angeles also agrees to inspect incoming high-risk shipments of plant material from Florida and other southern states, as imposed by Division 4, Part 2, Chapter 1, Article 1, Section 6303 and Chapter 2, Article 1, Sections 6401 and 6403 of the Food and Agricultural Code.

The county will perform activities approved by the CDFA as described in the attached Estimate of High-Risk Pest Exclusion Activities included in Exhibit B, Budget Detail and Payment Provisions and by this reference made a part hereof. Definitions of the key high-risk activities can be defined as follows:

- A. Inspection work at Air Freight Facilities can include, but is not limited to:
1. County biologist(s) reviewing invoices for content origin/destination, checking packages for quarantine compliance, rejecting parcels that do not adhere to quarantine compliance, inspecting for high-risk pests (i.e. exotic fruit flies, Japanese beetles, scales and mealy bugs, etc.).
  2. Daily record keeping of inspections in regard to pest finds, writing reports referencing Report 4 and Report 4a to reflect daily record keeping entries, notifying the Interior Pest Exclusion Program of the presence of any significant pest finds, etc.

Inspecting shipments of fruits, vegetables, and propagative plant material is the highest priority. Inspecting shipments of cut flowers and greenery is a lower priority. As quarantine areas and commercial channels change, county biologist(s) shall prioritize high-risk inspection activities as appropriate to meet the changing needs.

- B. Inspection work at nurseries or nursery holding facilities can include, but is not limited to:
1. County biologists receiving and reviewing Plant Referrals (008) issued by CDFA border stations for high-risk plant shipments from Florida and other southern states.
  2. County biologist visiting destination nursery or nursery holding facility to inspect incoming plant material for all quarantined pests (i.e., Imported Fire Ant, Burrowing and Reniform nematodes, all other pests including surface pests, soil pests, hitchhiking pests, weed pests, etc.).

3. County biologist maintaining records of inspections and pest finds, issuing notices of rejection if necessary, notifying the Interior Pest Exclusion Program of the presence of any significant pest finds, etc.

The county's biologist(s) shall determine the time of day and week the inspections are to occur. If a county finds it necessary to deviate from its approved Work Plan, Exhibit A, Attachment 4, said county will notify the Interior Pest Exclusion Program of any changes.

The county shall submit monthly an itemized invoice, on county letterhead, identified in Exhibit A, Attachment 5 and a completed monthly Report 4a, identified as Exhibit A, Attachment 6. All Report 4a's shall be submitted on Form #66-092a to the CDFA Contract Manager.

Food and Agricultural Code of California

2282.5. (a) The development of work plans for allocation of the funding appropriated in the Budget Act to the department for local assistance for agricultural plant and animal pest and disease prevention shall be the responsibility of the department. The department shall establish criteria for the development of the work plans and for allocating the appropriated funds.

(b) Of the amount appropriated in the Budget Act to the department for local assistance for agricultural plant and animal pest and disease prevention, five million five hundred thousand dollars (\$5,500,000) shall be utilized solely for high-risk pest exclusion activities. The work plans for the exclusion of high-risk pests shall be developed by the department with the county agricultural commissioners and in consultation with affected industry representatives. In order to determine the effectiveness of high-risk pest exclusion programs in each county, the criteria established by the department for the work plan shall include, but need not be limited to, the following:

- (1) The number of high-risk plant shipments entering each county.
- (2) The number of high-risk entry points in each county.
- (3) The number of state action quarantine pests intercepted or detected annually in each county.
- (4) The work hours expended by each county in conducting exclusion of high-risk pests.
- (5) The rate of interceptions and rejections per inspection activity.

(c) To remain eligible for funding under this section, a county shall maintain its support of ongoing operational costs of the county agricultural commissioner programs listed in subdivision (b) of Section 2282, at 1997-98 fiscal year levels.

(d) Funds allocated for high-risk pest exclusion activities pursuant to subdivision (b) may not be expended for any purpose other than the exclusion or detection of high risk pests consistent with the work plans prescribed in subdivision (a) or scientific evaluation. Funds allocated by each county on or after September 28, 1998, shall not be allocated to other programs listed in subdivision (b) of Section 2282 until the county work plan is approved by the department consistent with the funding appropriated in the Budget Act to the department for local assistance for agricultural plant and animal pest and disease prevention for this purpose.

ATTACHMENT 3**COUNTY HIGH RISK PEST EXCLUSION PROGRAM  
ESTIMATED WORK PLAN GUIDELINES****PROGRAM DEFINITIONS**

**High-Risk Shipments:** are those where there exists a high degree of likelihood that one or more "A" or "Q" rated plant pests will be introduced into or spread within the State by movement or entry of the shipment. "A" and "Q" rated plant pests have been determined to have potential for causing severe damage to the State's agricultural industry, natural resources, or environment, and as such any shipment likely to harbor such pests is considered high-risk. All high-risk shipments are to be inspected. Non-high-risk parcels ("Flower of the Month Club" bulbs, bare-root nursery stock from areas which do not represent a serious quarantine risk, plant materials from California origin with nursery certification, etc.) moving through a "high-risk" facility may be monitored via profiling and inspected as time allows during the premise visit. These shipments will not be included as "high-risk" shipments inspected. High-risk shipments which should be inspected include such items as cut flowers and nursery stock from quarantine areas, any plant materials in unmarked parcels, and other plant material shipments which have a historical record of "A" and "Q" rated pest interceptions.

**High-Risk Pathways:** those facilities where high-risk shipments are regularly or frequently intercepted. The known high-risk pathways have been listed on the Estimate of High-Risk Pest Exclusion Activities, including U.S. Postal Distribution Centers, UPS (except local), Federal Express, Air Freight, Air Freight Forwarded, Truck Referrals (008a-Gypsy Moth, 008-Plants & 008-Other), Specialty Markets, Swap Meets, Post Entry Quarantine, and "Other" pathways identified in your work plans and approved by the Department.

**Shipments Inspected:** Shipments physically opened and examined. This is not packages or pots inspected. A shipment is one lot of plant material sent from one shipper to one receiver via one mode of transport.

**Rejections:** Number of state level rejection notices written. This does not include rejections of materials for failing to meet nursery standards of cleanliness, or materials rejected for B or C rated pests. Any time a live A or Q rated pest is found in a shipment a rejection notice should be issued.

**Pest Interceptions:** Number of "A" and "Q" pest interceptions. When more than one pest species is found in a single shipment, each different species is to be counted as an interception. Finding more than one pest of the same species does not equate to multiple interceptions.

**U.S. Post Office:** Postal distribution centers formerly known as sectional centers that sort mail sealed against inspection (first-class, priority, and express mail parcels).

**United Parcel Service (except local service):** Facilities which process parcels shipped via overnight or expedited service versus facilities that process only parcels moving locally.

**Air Freight:** Air cargo shipments inspected at the airport facility or at destination (see next item).

**Air Freight/Forwarded:** Shipments allowed to proceed to destination or another location for inspection within the same county or to another county and under a warning hold notice (blue tag) or by compliance agreement authorization.

**Truck (008a):** Shipments of historically high-risk household articles from historically high-risk areas that require inspection for gypsy moth.

**Truck (008-Plants & 008-Other):** High-risk shipments moving to destination under quarantine hold notice. This does not include blue-tagged intrastate shipments of nursery stock inspected for glassy winged sharpshooters.

**Post-Entry Quarantine Inspections:** These inspections include both site and plant inspections. A shipment should be recorded when plant material is inspected.

**Other:** This column is to be used to estimate the workload for any high-risk pathway not already listed on the form; these may include: pet stores or aquariums, express parcel carriers, sea freight forwarded or other special focus activities approved by the Department. Special focus activities are then to be described under "Special Focus Description".

#### ACCOUNTING GUIDELINES

Program cost estimates for high-risk exclusion activities conducted at optimal levels are to be estimated based upon the guidelines and definitions contained within the County Agricultural Commissioners' Annual Financial Statement Procedures Manual. This cost/hour figure is to be estimated from an average of the costs/hour for Fiscal Years 1999/2000, 2000/2001 and 2001/2002. A county may choose to use their established County Auditor approved hourly rate in lieu of the three-year average. This would be the rate charged an applicant for phytosanitary or other type of certification if such a rate is established.

#### PROGRAM GUIDELINES

1. All inspections of high-risk terminal points are to be conducted as close to optimal service levels as is fiscally possible.
2. Optimal service level inspections are those conducted during the sort time(s) or before the last critical dispatch(s) of the facility monitored.
3. All high-risk shipments are to be inspected. Shipments not presenting a high risk that are moving through a high-risk facility may be monitored and inspected as time permits, but should not be included as a program cost or counted as a measure under this work plan.
4. A shipment is any amount of agriculturally regulated product/packages/potted plants from one specific shipper, in one shipment, sent to one specific consignee.

#### OPTIMAL SERVICE LEVELS FOR PEST EXCLUSION TERMINAL INSPECTION FREQUENCY

FACILITY	OPTIMUM INSPECTION FREQUENCY
U.S. Postal Distribution Center, United Parcel Service & Federal Express	Daily during sort
Air Freight	Daily when appropriate after offloading
Truck Referrals (008) & (008a)	100 % of Referrals after offloading

Agreement No. 06-0156-1  
Exhibit **A**  
**1/3**

The county of Los Angeles agrees to inspect incoming high-risk shipments of plant material from Hawaii, Florida and other southern states for the California Department of Food and Agriculture (CDFA), as imposed by Division 4, Part 2, Chapter 1, Article 1, Section 6303 and Chapter 2, Article 1, Sections 6401 and 6403 of the Food and Agricultural Code incorporated in this Scope of Work.

The county will perform activities approved by the CDFA as described in the attached Estimate of High-Risk Pest Exclusion Activities, herein titled as Work Plan, Airfreight and Nursery, and by this reference made a part hereof. High-risk pest exclusion activities at airfreight facilities and nurseries or nursery holding facilities can be defined as follows:

Inspection work at Air Freight Facilities can include, but is not limited to:

1. County biologist(s) reviewing invoices for content origin/destination, checking packages for quarantine compliance, rejecting parcels that do not adhere to quarantine compliance, inspecting for high-risk pests (i.e., Imported Fire Ant, Diaprepes root weevil, and other arthropods, gastropods, and weeds).
2. Daily record keeping of inspections in regard to pest finds, writing reports referencing Report 4 and Report 4a to reflect daily record keeping entries, notifying the Interior Pest Exclusion Program of the presence of any significant pest finds, etc.

Inspecting shipments of fruits, vegetables, and propagative plant material is the highest priority. Inspecting shipments of cut flowers and greenery is a lower priority. As quarantine areas and commercial channels change, county biologist(s) shall prioritize high-risk inspection activities as appropriate to meet the changing needs.

1. Reviewing Form 66-008, shipping documents, and quarantine certificates for high-risk plant shipments from Hawaii, Florida, and other southern states.
2. Inspecting incoming plant material for all pests (i.e., Imported Fire Ant, Diaprepes root weevil, and other arthropods, gastropods, and weeds). Less than 100% of all shipments may be sampled for nematodes. The decision to conduct nematode sampling on individual shipments should be based upon nematode detection history of the shipper and pest risk associated with the type(s) of plant material in the shipment.
3. Up to 1% of all shipments may be sent under seal to the receiver with the concurrence of the county. Inspectors shall be present to break the seal and monitor the unloading of all sealed shipments.
4. Maintaining records of inspections and pest finds, issuing notices of rejection if necessary, notifying the Interior Pest Exclusion Program of the presence of any significant pest finds, etc.
5. Reviewing Pest Exclusion Advisories and relevant reports maintained on the CDFA Interior Pest Exclusion Extranet website.

The county's biologist(s) shall determine the time of day and week the inspections are to occur. If a county finds it necessary to deviate from its approved Work Plan, said county will notify the Interior Pest Exclusion Program of any changes.

The county shall submit monthly an itemized invoice, on county letterhead (see sample attached) and a completed monthly Report 4a, also here attached. All Report 4a's shall be submitted on Form #66-092a to the CDFA Contract Manager. Send itemized invoices and monthly Report 4a's to:
